Reasons for Allowance

1. This application has been examined. The amendment filed 1/26/05 has been entered.

2. The following is an examiner's statement of reasons for allowance: The amendment filed 1/26/05 places the application into condition for allowance by clarifying in the independent claims specifically that the groups of pictures are determined according to the first, second, and third characteristics, with each picture icon indicating the determined group. Thus the invention is a novel method and graphical user interface to navigate and retrieve pictures in a picture database by providing three display dimensions each representing a different characteristic of the pictures, determining groups of pictures according to the three characteristics, and then providing a scatter plot with a plurality of picture icons plotted according to each dimension such that two dimensions are plotted along a first and second axis, and the third dimension is represented by a distinct visual characteristic of the icons. The features combined are not set forth in the prior art of record. Independent claim 1 amended shows the method, and independent claim 16 amended shows the graphical user interface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
